Challenge #1: Goal

Finding a perfect place to call home is often a challenge. There are many challenges like limited vacancies, tight budgets, and the need for a convenient, comfortable space to call home. However, in this digital age, the solutions are just one click away. Boarding House Website designed exclusively for students seeking easy access to comfortable accommodations. Here, students can explore the journey of creating a boarding house website that caters students in an easier and more transparent way to explore their boarding house options. In just few clicks, this Boarding House Website will grant the searching students some available boarding house.

In addition, the students can explore the boarding house by viewing the high-quality photographs and videos (if available) of rooms, comfort room, wash area, laundry area and other common areas if it is available inside the boarding house. The Boarding House Website aims to revolutionize the search for student accommodations by providing a user-friendly platform that offers an unprecedented level of convenience and removing the hustle and to reduce your tiredness from endless phone calls and one by one visits to potential boarding house

My Goals is to:

- ✓ Create a user-friendly and intuitive interface for the website.
- ✓ Create a user-friendly and intuitive interface for the website.
- ✓ Gather high-quality photographs and videos of boarding houses to create a visually appealing experience for users.
- ✓ Release the website to the public, making it accessible for students searching for boarding houses.
